

KINGWELL

HDMI Adapter For iPad&iPhone 4

Transmit iPad & iPhone 4G high definite signal to HD TV/Display

We have released the first one HDMI adapter on the world for the iPad&iPhone 4G, iPod touch 4G. Now you can see your iPad and iPhone's HD movies on your HD TV. it's so amazing! you never see a HDMI adapter can be elegant like this!!

What you can benefit from HDMI?

Simply speaking, what display on the iPad or iPhone, you can make it perfectly show on your HD TV, Projector or HD Display. the videos, the Podcast, the HD movies, the MTV, imagining you can have so much fun with iPad&iPhone 4G, but you have so fabulous screen to instead of the 10 inch iPad screen and the small iPhone 4G screen, what a fantastic !

Overview

1. The HDMI Adapter is compatible with iPad, iPhone 4, iPod touch 4G.
2. Support to transmit the Video and Audio to HD TV or your HDMI device. Not as the VGA adapter, only transmit video.
3. Support 720P High Digital signal output.
4. Support videos , movies, MTV, Podcast, etc.....
5. The HDMI adapter is a small box, just like the iPad camera connection kit, Very easy to carry to anywhere.
6. Plug and play, No need power supply, No need jailbreak.
7. Do not support the movies that were purchased through iTunes or locked with Apple's Fairplay copy protection scheme, same as the VGA adapter.
8. Do not support to display internet web pages on TV, same as the VGA adapter.

How to use?

easily plus& play

Use a HDMI cable(usually included in the accessories of HD TV), connect the HDMI adapter and TV, all the showing transmit to the screen.
